

# AHMAD THAHA HUSSAIN

Product Designer | Creative Strategist | Storyteller

Email : [ahmadth.official@gmail.com](mailto:ahmadth.official@gmail.com)

Mobile No : +91 9605437459

Portfolio : [www.ahmadthofficial.com](http://www.ahmadthofficial.com)

LinkedIn : [linkedin.com/in/linkahmad](https://linkedin.com/in/linkahmad)

## PROFILE

Product Designer grounded in UX fundamentals and system thinking, integrating creative strategy, storytelling, and visual direction into structured digital and product experiences. Approaches design through research synthesis, content architecture, and interaction modeling to translate complex requirements into clear user flows and responsive interfaces.

Works across product structure, brand communication, and motion-led expression to ensure consistency from concept to execution. Aligns user behavior, business objectives, and brand identity to build cohesive, high-clarity products that balance usability, narrative depth, and functional precision.

## EDUCATION

### Indian Institute of Technology, Bombay (2021 - 2025)

- India's premier institute, globally recognized for excellence in engineering, technology, and design education.
- Bachelors in Design, Industrial Design, IDC School of Design · Graduated 2025

### Naipunnya Public School, Ernakulam (2019 - 2021)

12th Education

### Good Shepherd Public School, Kottayam (2015 - 2019)

High School Education

### New Indian School, Bahrain (2007 - 2015)

Primary Education

## EXPERIENCE

### UI/UX Designer at XandY Learning (Nov 2025 - Present)

EdTech company building strong academic foundations for competitive exams.

- Led the expansion of the main website, introducing strategic pages including Careers, Payment, and Resources to enhance platform functionality and support business growth.
- Defined content structure and user flows across newly introduced and existing pages, ensuring clarity, scalability, and alignment with brand direction.
- Designed standardized web templates for high-utility workflows such as Hall Ticket and Result downloads, optimizing hierarchy and usability for large student traffic.
- Expanded the "XandYman" character into a curated short-form artbook, strengthening brand storytelling across digital and print touchpoints.
- Developed structured presentation systems for Math Puzzle programs, integrating information architecture principles to enhance instructional clarity and engagement.

### **UI/UX Intern at XandY Learning (July 2025 - Nov 2025)**

EdTech company building strong academic foundations for competitive exams.

- Led end-to-end design of a parent-facing mobile application from scratch — conducting brand immersion, secondary research on gamification models, and primary research through mentor and parent interviews. Synthesized insights using affinity mapping and translated findings into wireframes and 12–20 high-fidelity screens, delivering structured developer handoff documentation.
- Conceptualized and designed the brand mascot “XandYman,” developing subject-specific reference sheets (Maths, Physics, Chemistry for Grades 6–10) to strengthen engagement and visual identity across learning materials.
- Established a standardized presentation framework, including video-integrated formats and structured design guidelines, enabling mentors and subject experts to create cohesive and pedagogically aligned class content.

### **Core Member at The Design Club, Indian Institute of Technology B - (Feb 2024 - March 2025)**

The design club of IIT Bombay who learn and share design concepts and techniques.

- Collaborated on the Vision trailer for IIT Bombay's design festival, playing a key role in animating, filming, and designing promotional materials such as stickers and posters, contributing to the festival's successful engagement with over 10,000 attendees.
- Launched Comic Series "Outcast": Released over 800 + copies of Chapter 0 of a comic called Outcast, exploring a world where design is forbidden, following Rajesh's discovery of a rocket in a highly controlled, digital society.
- Crafted Characters and Artwork: Developed character designs and artwork for the comic series, ensuring a cohesive visual style that supports the narrative.
- Researched Design Principles: Conducted research on design concepts and storytelling to build a rich narrative and immersive world and gathered feedback to enhance the story and artwork.

### **UI/UX Intern at IT City Technologies (June 2023 - July 2023)**

Indian technology solutions company that provides software development, IT services, and digital transformation solutions for businesses.

- Conceptualized and prototyped the initial redesign of the user interface for Arabian Rubber Industries UAE
- Coordinated with the development team throughout the process
- Analyzed the goals and pain points of the user and were studied and briefed
- Created wireframes and executed hi-fi UI prototypes.

---

## **ACHIEVEMENTS**

### **Undergraduate Common Entrance Exam for Design 2021**

- UCEED is a national-level design entrance exam in India, conducted for admission to Bachelor of Design (B.Des) programs at premier institutes like Indian Institutes of Technology (IITs).
- All India Rank 78

### **Joint Entrance Exam Mains 2021 (JEE Mains 2021)**

- JEE Mains is a national-level engineering entrance exam in India with around 9–12 lakh (900,000–1.2 million) candidates appearing each year, used for admission to premier institutes like National Institutes of Technology (NIT) and as a qualifier for JEE Advanced.
- 99.56 Percentile Score

### **Joint Entrance Exam, Bachelors in Architecture, 2021 (JEE B. Arch 2021)**

- JEE B.Arch is a national-level entrance exam (through JEE Main Paper 2A) with around 1–1.5 lakh candidates, for admission to undergraduate architecture programs (B.Arch) in institutes like National Institutes of Technology.
- 99.1 Percentile Score

## Joint Entrance, Bachelors in Planning, 2021 (JEE B.Plan 2021)

- JEE B.Plan is a national-level entrance exam (through JEE Main Paper 2B) for admission to undergraduate planning programs (B.Plan) in premier institutes like National Institutes of Technology (NIT).
- 99.2 Percentile Score

## Kerala Engineering Architecture Medical Entrance, 2021 (KEAM 2021)

- Kerala Engineering Architecture Medical Entrance is a state-level entrance exam in Kerala with around 1–1.5 lakh candidates each year, used for admission to engineering and allied courses in colleges across the state.
- Rank 63

## National Talent Search Examination Scholar 2019 (NTSE Scholar 2019)

National Talent Search Examination is a national-level scholarship exam in India conducted by the National Council of Education Research and Training (NCERT), Government of India, with around 1 to 1.2 million students appearing for the exam, conducted to identify and support talented school students academically.

## Australian Benchmark Test (ACER)

- ACER Australian Benchmark Test is an international school-level assessment by Australian Council for Educational Research with tens of thousands of students participating globally, used to benchmark academic performance in subjects like English, Mathematics, and Science.
  - Achieved Distinction
- 

# KEY PROJECTS

## XandY Main Website - Interaction Design

Full time at XandY Learning

- Spearheaded the expansion of the XandY website by identifying and launching high-impact pages like Careers, Payments, and Resources to support product and business growth
- Architected clear, scalable content structures across the platform, improving information hierarchy and long-term maintainability
- Designed and refined end-to-end user flows to create a more intuitive, seamless navigation experience
- Aligned all additions with the brand's design language and strategic direction, ensuring consistency across the entire website

## XandY Parent's App - Interaction Design

Internship at XandY Learning

- Led the end-to-end design of the XandY Parent App from the ground up, shaping the product from concept to high-fidelity execution
- Conducted in-depth research including brand immersion, gamification studies, and primary interviews with mentors and parents
- Synthesized research insights using affinity mapping to inform clear, user-centered design decisions
- Translated findings into wireframes and 12–20 high-fidelity screens, supported by structured documentation for seamless developer handoff

## Registration Portal Designs - Interaction Design

Internship at XandY Learning

- Designed standardized web templates for high-traffic workflows such as Hall Ticket and Result downloads
- Optimized information hierarchy to ensure clarity, speed, and ease of use under heavy user load
- Improved overall usability to handle large-scale student traffic efficiently

## Video & Presentation Guidelines - Experience Design

Internship at XandY Learning

- Established a standardized presentation framework to ensure consistency across all class content
- Integrated video-supported formats to enhance engagement and delivery effectiveness
- Defined clear design guidelines enabling mentors and subject experts to create cohesive, pedagogically aligned materials

## Functional Clothing Design - Product Design

Individual project under the guidance Prof. Kums P. Kumaresan (July 2024 - December 2024)

- Researched fabric types, ventilation methods, and animal cooling strategies to inform jacket design.
- Constructed an adaptive ventilation system aimed at improving thermal comfort in humid climates.
- Prototyping in progress; planning user testing to evaluate airflow efficiency and overall wearability.
- Targeting a high-performance jacket optimized for breathability and user comfort.

## IRCTC App Redesign - UI/UX Redesign

Self project (June 2024 - July 2024)

- Performed sentiment analysis on user reviews to identify recurring pain points and usability issues.
- Developed personas and empathy maps to align solutions with real user behavior and goals.
- Simplified navigation flow and redesigned visual hierarchy for improved accessibility and engagement.
- Built high-fidelity prototypes and ran iterative tests to validate user-centered improvements.

## Maidan - UX Research

Group project under the guidance Prof. Anirudha Joshi, IITB (September 2023)

- Performed contextual inquiry with 17 players to develop a DRS system for informal cricket.
- Created personas and mapped insights through affinity mapping and group synthesis.
- Visualized a gamified interface inspired by Duolingo to simplify and engage decision-making.
- Iterated the system using real feedback to improve clarity and fairness in gameplay.

## The Fish Markets of Powai - Ergonomics Analysis

Group project under the guidance Prof. Wricha Mishra (Aug-Sept 2023)

- Conceptualized ergonomic solutions for the local fishermen in Powai to minimize their body pain and create comfort while working.
- Studied, observed and interviewed them and analyzed their pain points.
- Analyzed their workspace and posture and interpreted them through REBA, RULA and Nordic Musculoskeletal questionnaire.
- Created generalized solutions to minimize pain points of the fishermen

---

## SKILLS

### Design & Research

Product Design, UI/UX Design, Storytelling, User Research, Ideation, Wireframing, Prototyping, Affinity Mapping, User Flow Design, Contextual Inquiry, Usability Testing, Interface Design, Design Evaluation

### Soft Skills

Problem Solving, Storytelling, Empathy, Communication, Collaboration, Presentation, Open-Mindedness, Leadership

### Creative & Visual

Visual Storytelling, Storyboarding, Sketching, Data Visualization, Animation, Branding

### Tools & Software

Figma, FigJam, Adobe Illustrator, Photoshop, Krita, After Effects, Premiere Pro, Blender, Unity, Rive, Balsamiq, HTML, CSS, Bootstrap, Python, Miro
